I. Overview

1. Introduction

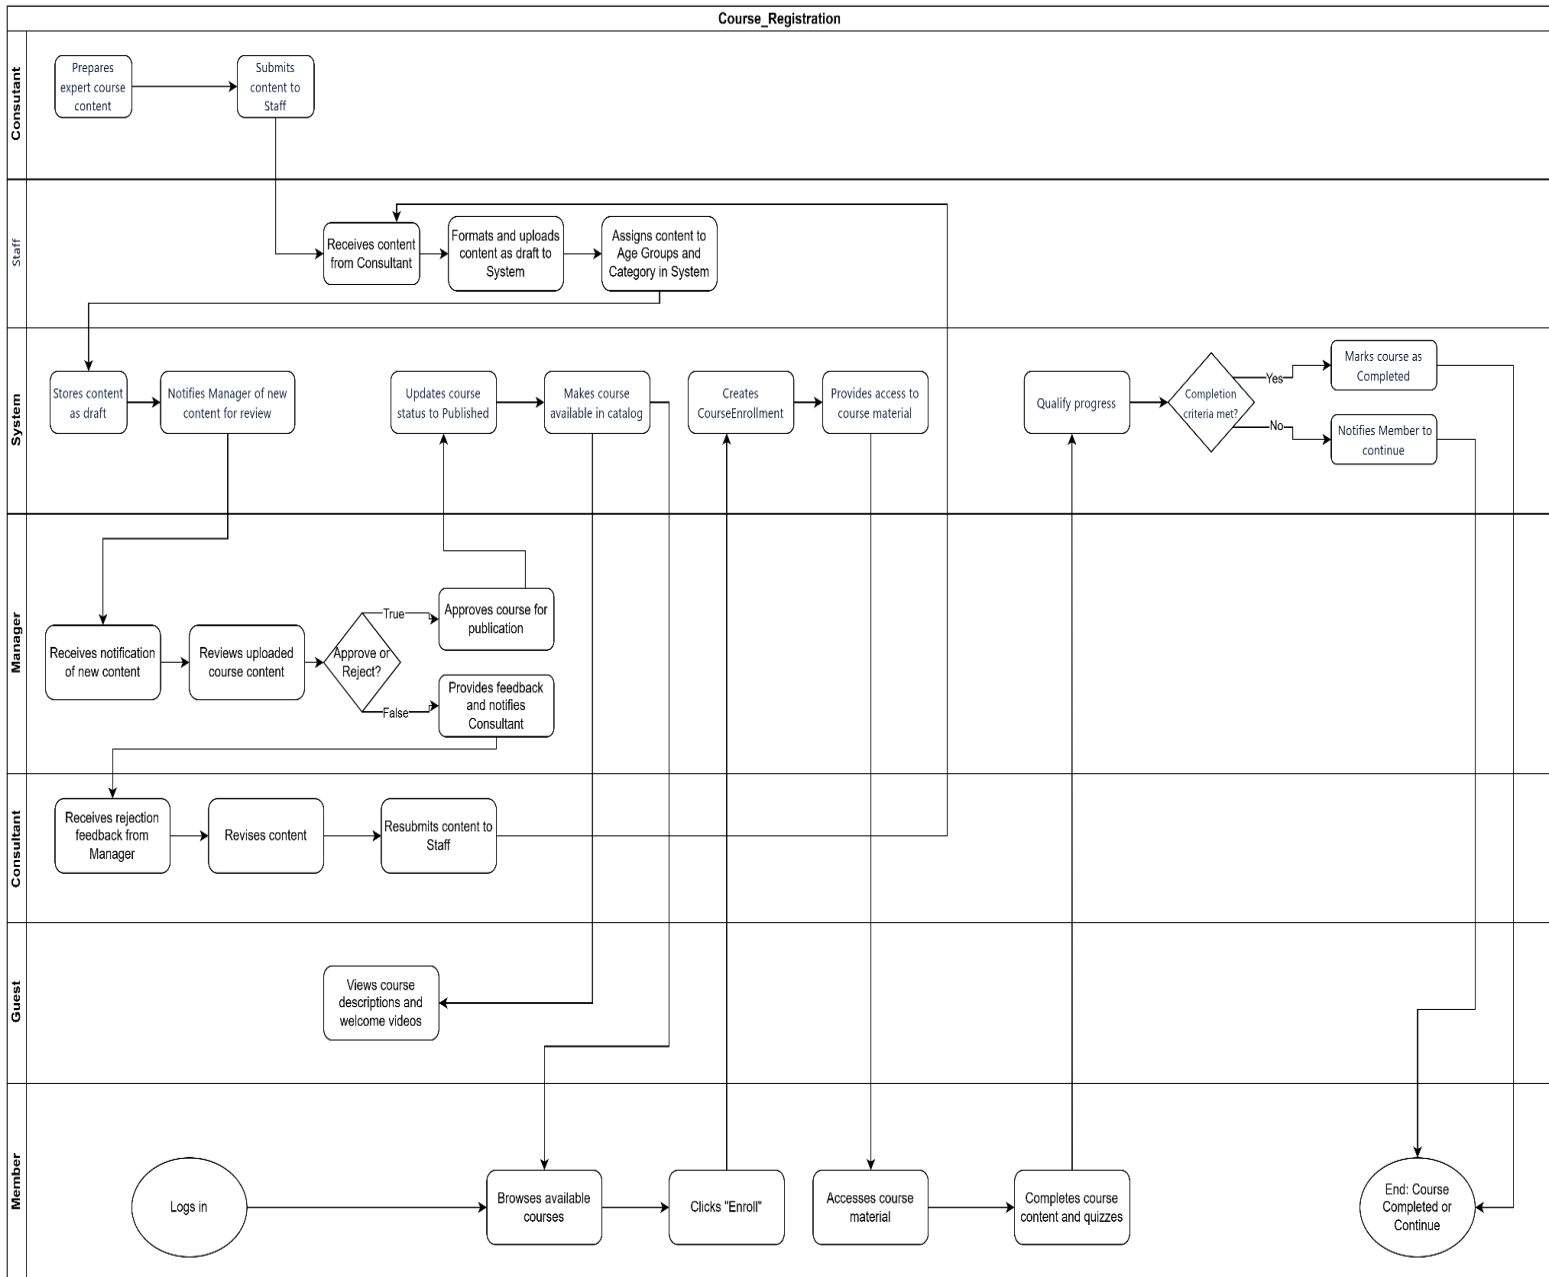

The Drug Use Prevention Support System is an online platform that provides support to volunteer organizations in drug prevention and education. The system allows the community to access educational content, self-assess risks through the ASSIST/CRAFT survey, schedule counseling, and participate in prevention programs.

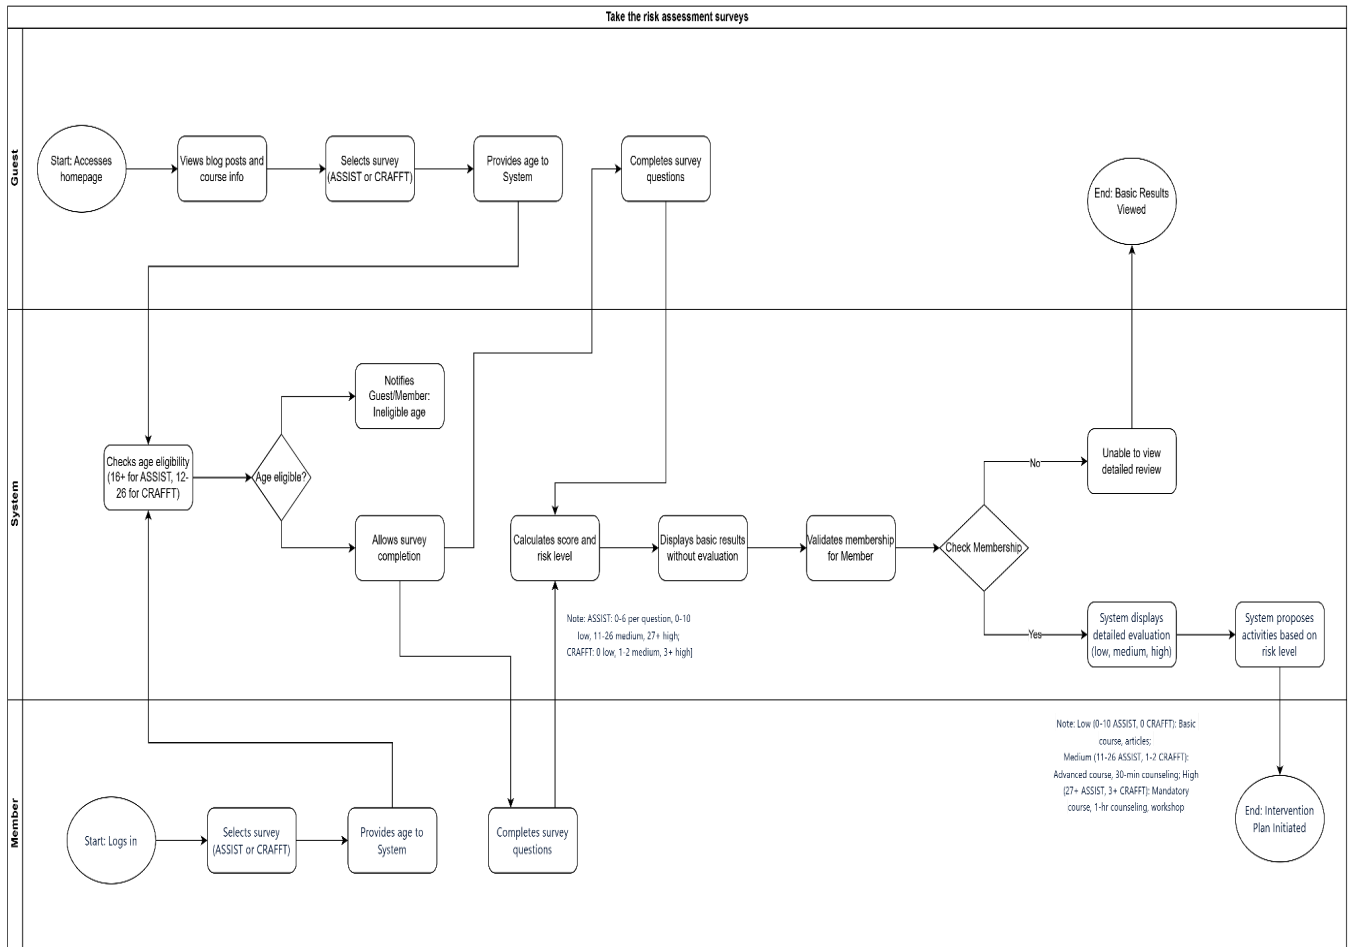

2. Business Main Flows

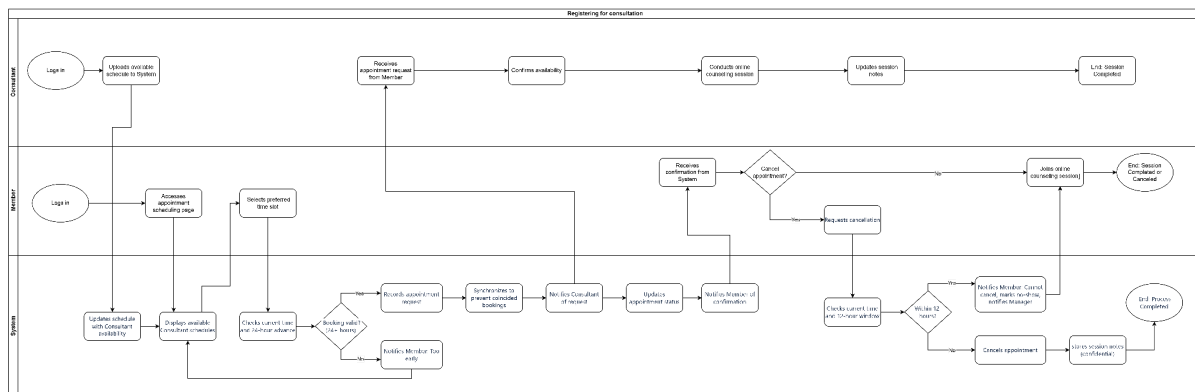

2.1. Course Registration Flow

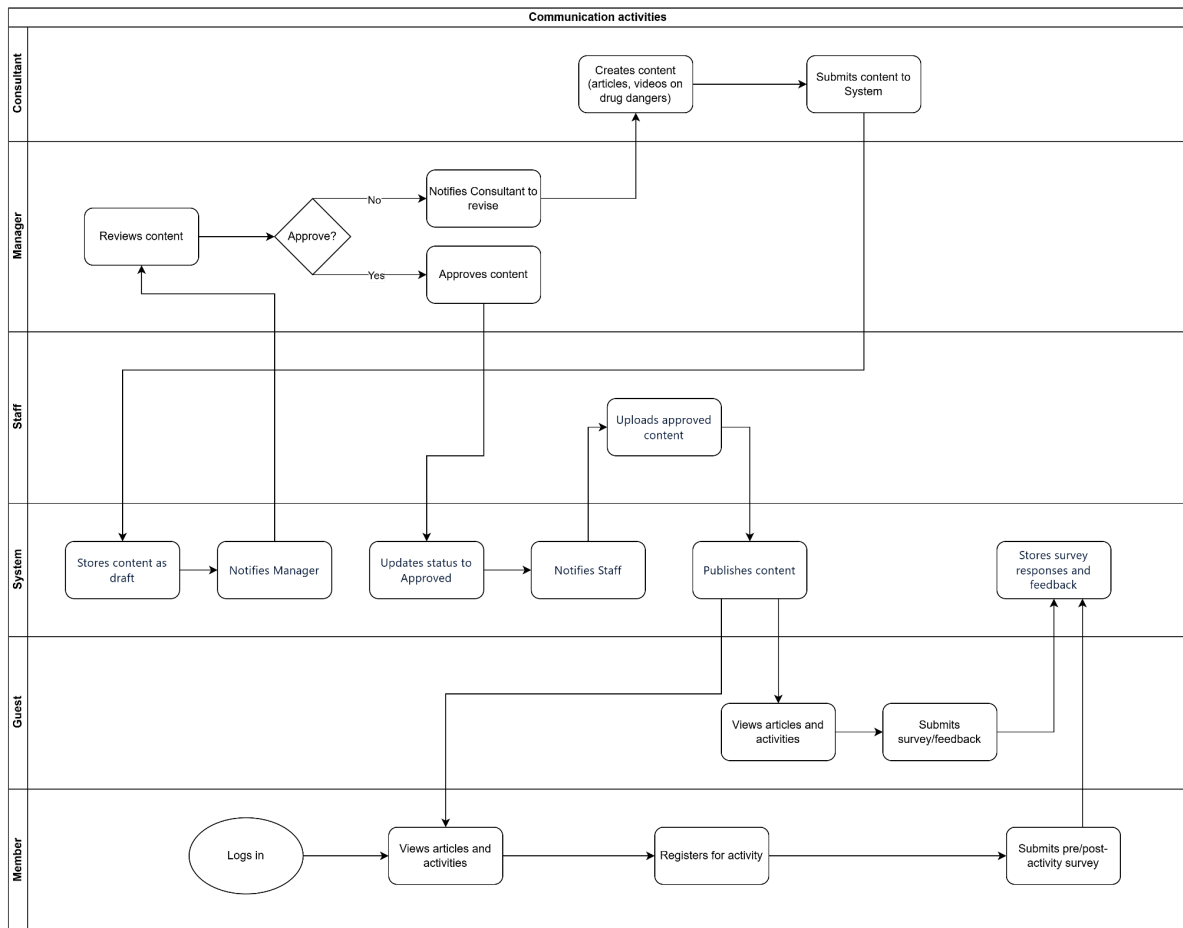

2.2. Survey & Risk Assessment Flow

2.3. Registering For Consultation Flow

2.4. Communication Activities

3. Business Rules

Business Rule ID	Business Rule Describe
BR-01	Multi-factor login: Users may register/login with email/password or using Google.
BR-02	The password must be greater than 6 characters.
BR-03	No account lockout: Incorrect credentials only show "Invalid email or password" message.
BR-04	Session timeout: Automatic logout after 30 minutes of inactivity.

BR-05	Email verification: Members must verify their email within 24 hours via a link sent to their inbox.
BR-06	Guest permissions: Guests can view Home, blog, course info, and take surveys; cannot view detailed survey results.
BR-07	Elevated account creation: Only Admins may create Staff, Consultant, or Manager accounts.
BR-08	Age warning for surveys: For ASSIST (16+) or CRAFFT (12–26), underage users see a warning but may continue the survey.
BR-09	Unlimited survey retakes: Users may retake each survey type without limit; each result is saved as a separate record.
BR-10	Survey scoring & classification: ASSIST (0–3 = Low; 4–26 = Medium; ≥ 27 = High); CRAFFT counts “Yes” (0 = Low; 1 = Medium; ≥ 2 = High).
BR-11	Survey result display: Guests see basic results only; Members see detailed results and recommended interventions.
BR-12	Survey data security: Only Members, Consultants, or Managers may access survey results; all survey data is encrypted at rest.
BR-13	Course enrollment conditions: All Members may enroll regardless of email verification; only Published courses appear in catalog.
BR-14	Single enrollment per course: Each Member may enroll only once in any given course.
BR-15	Enrollment record & access grant: On enrollment, the system creates a CourseEnrollment record and grants access immediately.
BR-16	Quiz retakes & progress tracking: Members may retake quizzes 3 times. If not pass, member need to enroll course again.
BR-17	Course completion criteria: Complete 100% of content and score $\geq 70\%$ (or per course-specific rule) to mark the course as Completed.
BR-18	Consultant availability update: Consultants must update their availability before members can book appointments.

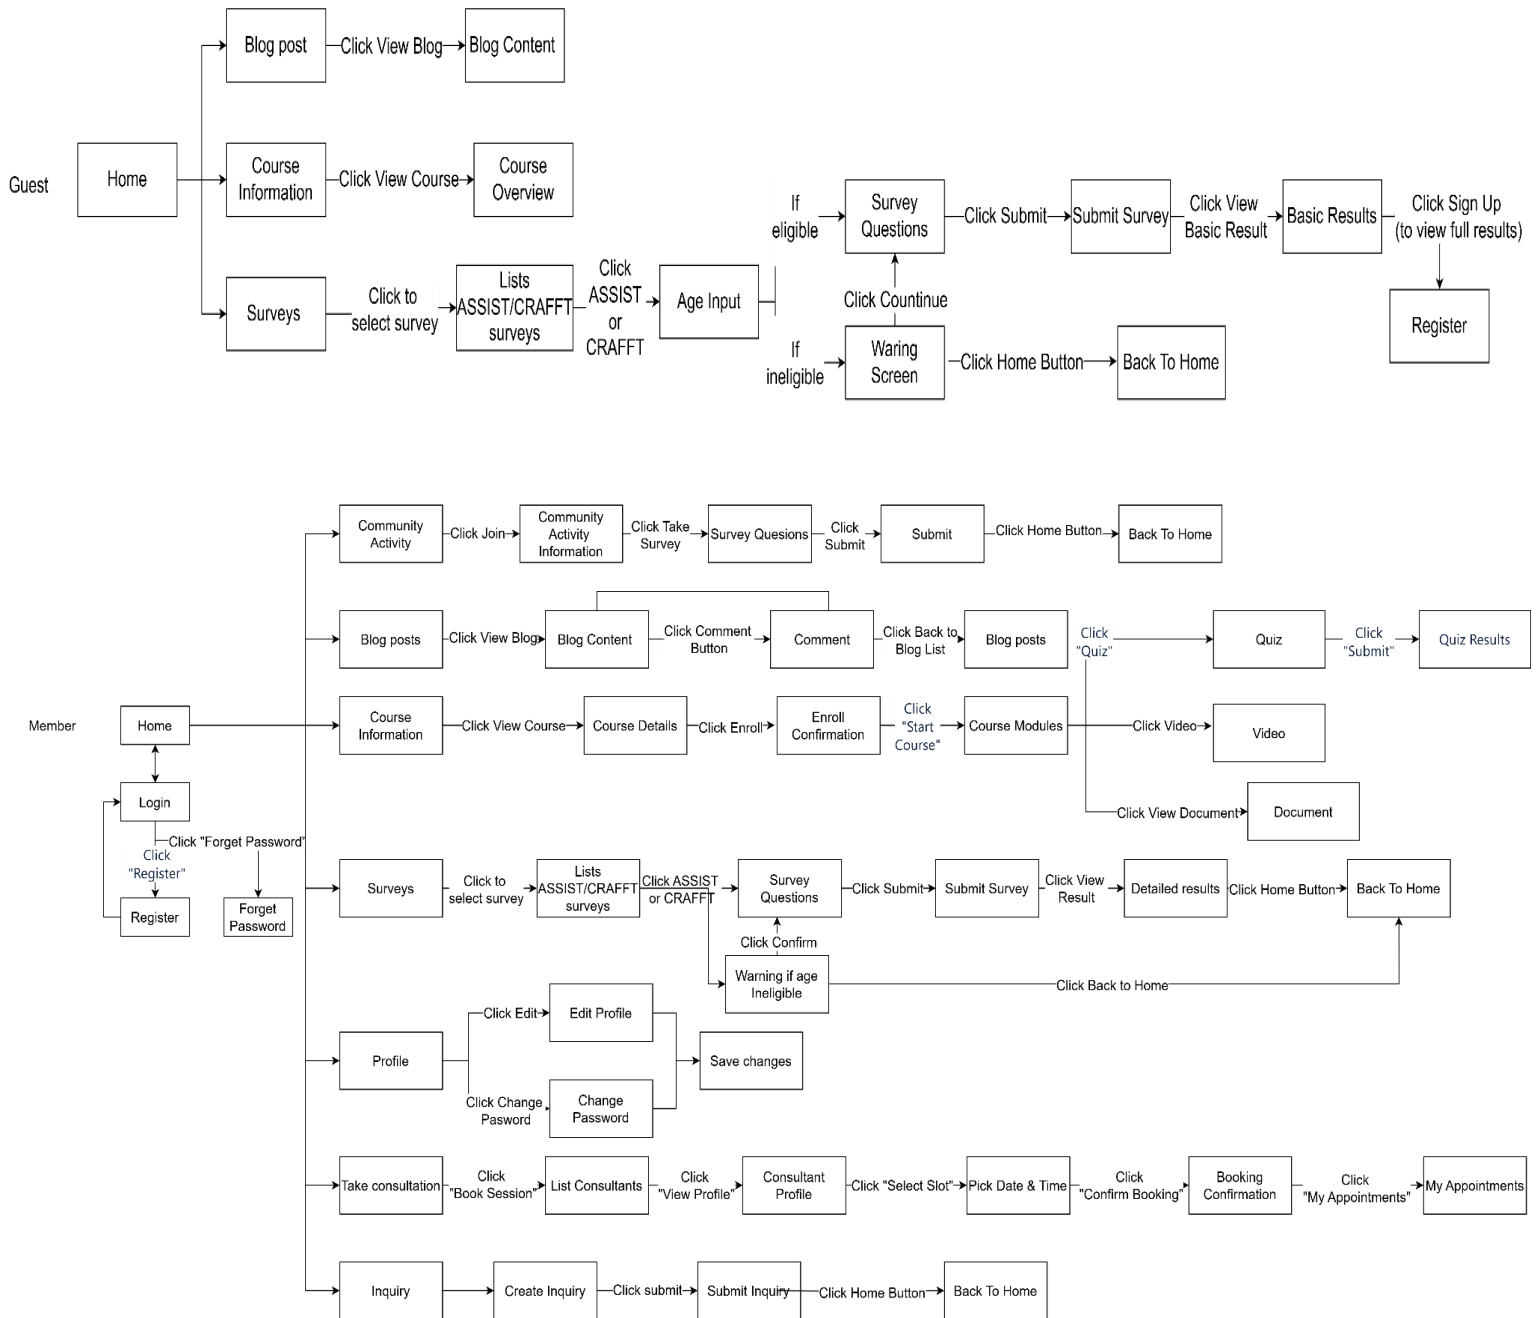

BR-19	Minimum booking lead time: Members must book at least 24 hours in advance of a consultation.
BR-20	The system only displays the available Schedule, then member can creates an AppointmentRequest with status Pending.
BR-21	Appointment confirmation & notification: When a Consultant confirms, status changes to Confirmed and notifications are sent to both parties.
BR-22	Cancellation & No-Show policy: Members may cancel up to 12 hours before; late cancellations are flagged as No-Show.
BR-23	Appointment data access: Only the Member, the assigned Consultant, or an authorized Manager may view appointment details.
BR-24	Content creation roles & workflow: Consultants submit raw drafts; Staff format & upload as Draft; system moves content to PendingApproval and notifies Manager.
BR-25	Manager feedback on content: Managers review PendingApproval items and choose Approve or Reject, providing comments if rejecting.
BR-26	Content publication: After approval, the content will change the status to Approved, and can be publish directly or expected to be automatically published.
BR-27	Consultant credential management: Consultants must hold valid credentials verified by Manager; may update only their own profile & schedule; may answer professional inquiries.
BR-28	Summary statistics: The system provides metrics—new Members, completed surveys, course enrollments & completions, appointments & No-Shows.
BR-29	Dashboard & report export: Managers/Admins may view the online dashboard, charts, and export detailed reports for any timeframe.
BR-30	Inquiry submission: Guests or Members may submit inquiries via a form (required fields: name, email, subject, content).
BR-31	Inquiry creation & assignment: System generates InquiryID with status Received; Staff review and assign to themselves or Consultants, then set status to InProgress.

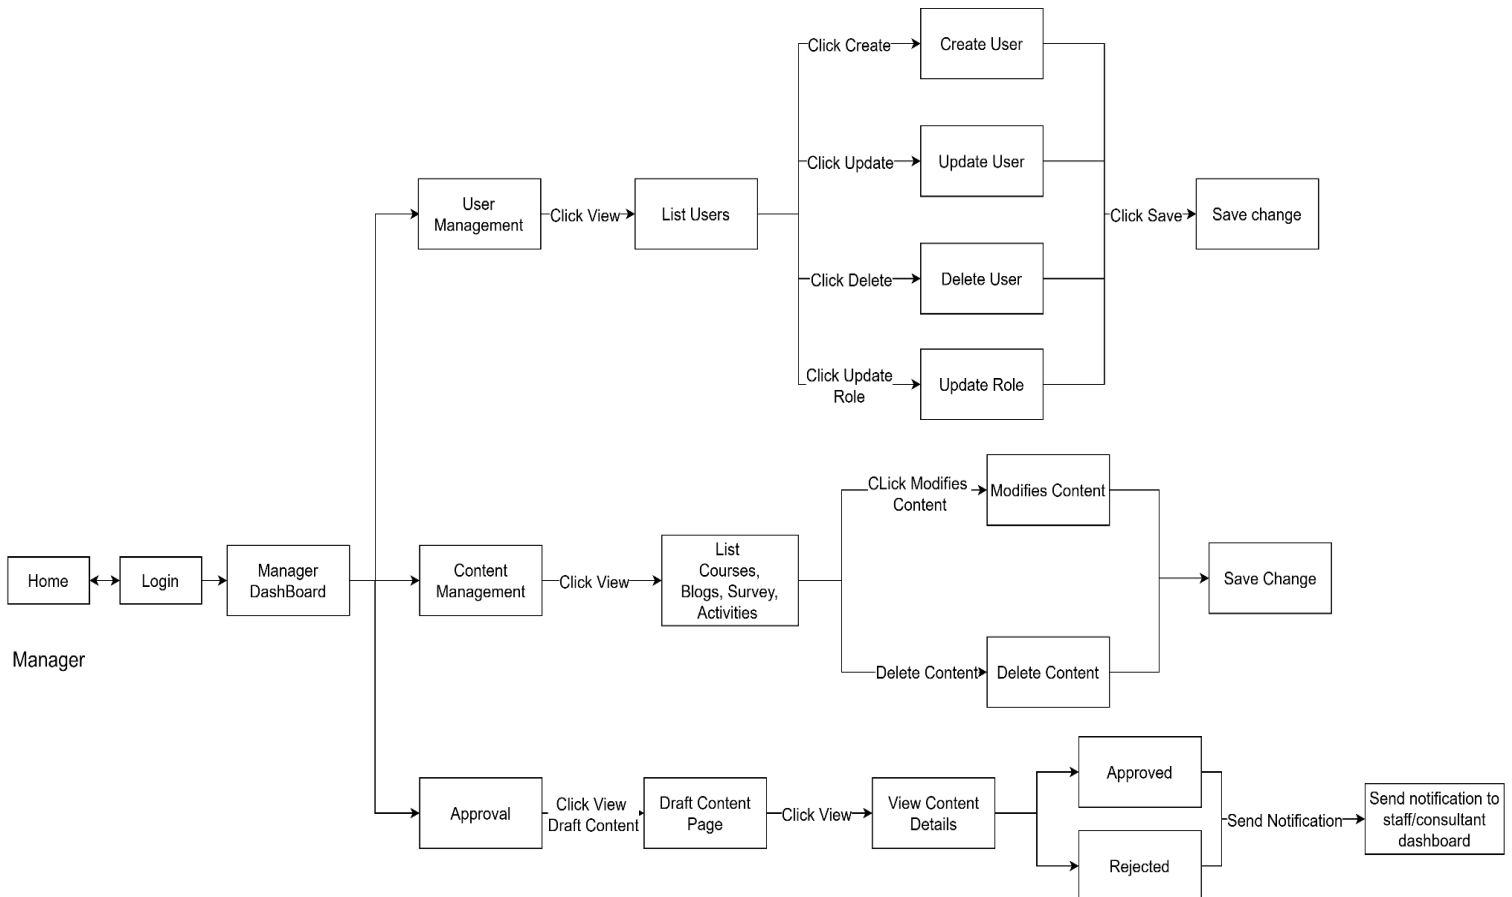

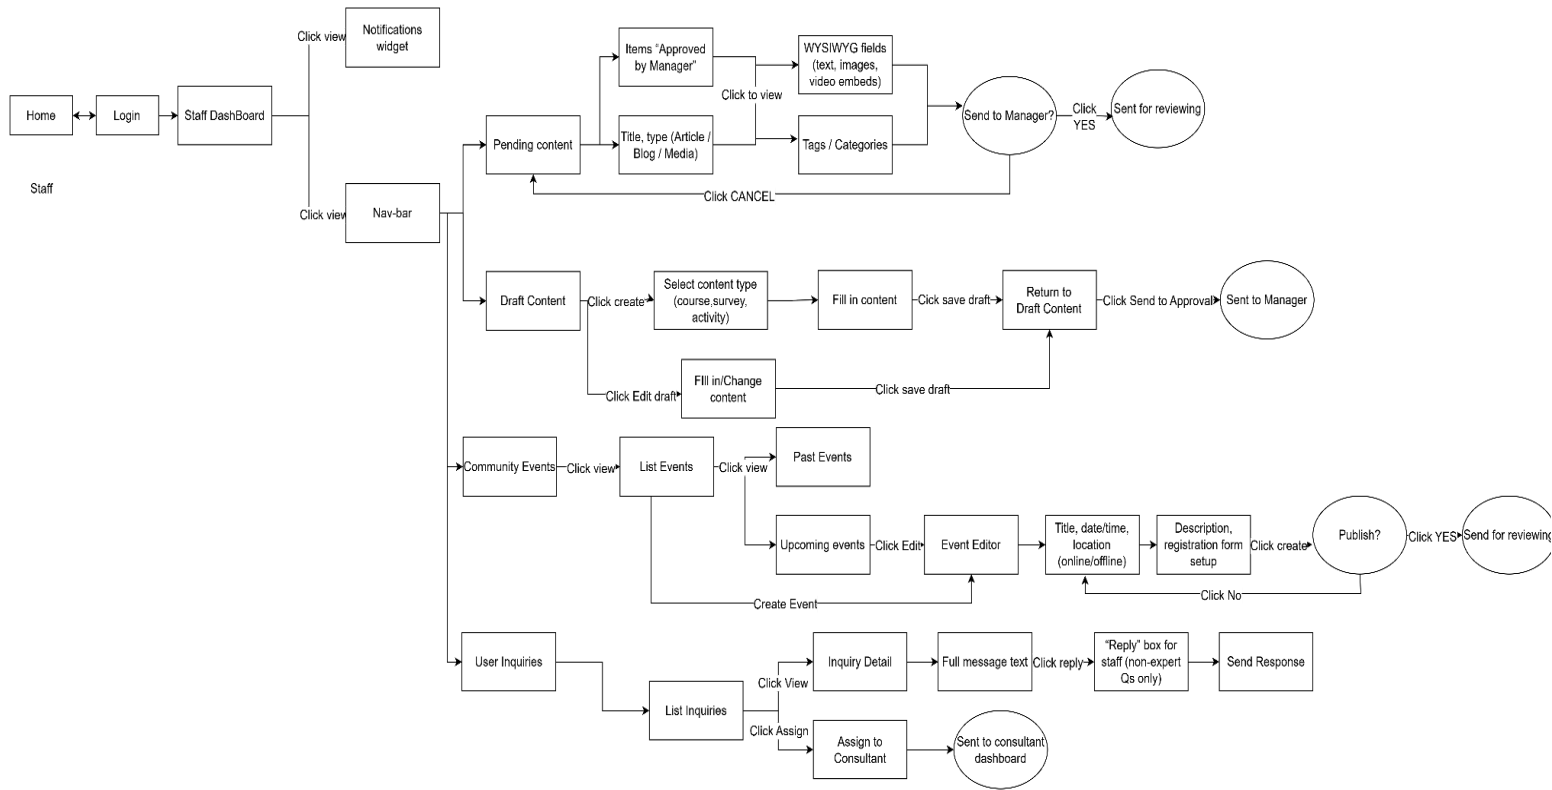

BR-32	Forwarding inquiries: If a Staff member cannot address an inquiry, they forward it to an appropriate Consultant.
BR-33	Inquiry resolution & closure: The responsible Staff or Consultant drafts a response, updates the system, and sets the inquiry status to Closed.
BR-34	Blog draft creation: Only authenticated Consultants may create blog drafts (title, body, illustration, ≥ 1 category).
BR-35	Notify Staff of new blog draft: When a draft is saved, the system sets status to Draft and notifies the Staff team.
BR-36	Blog draft moderation: Staff review draft formatting, metadata, and images, then move content to PendingApproval.
BR-37	Manager blog approval: Managers review PendingApproval blog drafts and choose Approve or Reject, providing feedback if rejecting.
BR-38	Blog publication: After approval, the Blog will change the status to Approved, and can be publish directly or expected to be automatically published.
BR-39	Community activity draft creation: Staff create community events (name, description, date/time, location, capacity) as Draft.
BR-40	Notify Manager of event draft: When saving a draft, the system notifies the Manager and sets status to Pending.
BR-41	Community activity approval: Managers review PendingApproval events and choose Approve or Reject, providing reasons if rejecting.
BR-42	Community activity publication: After approval, the events will change the status to Approved, and can be publish directly or expected to be automatically published.
BR-43	Community activity registration: Members may register; system manages attendee lists and closes registration 24 hours before event start.
BR-44	Posting comments: Guests or Members may post comments on blog posts and community activities; comments are saved immediately.
BR-45	Notification triggers: The system sends email/In-App notifications for events (email verification, password reset, survey completion, enrollment, appointment changes, content/inquiry updates).

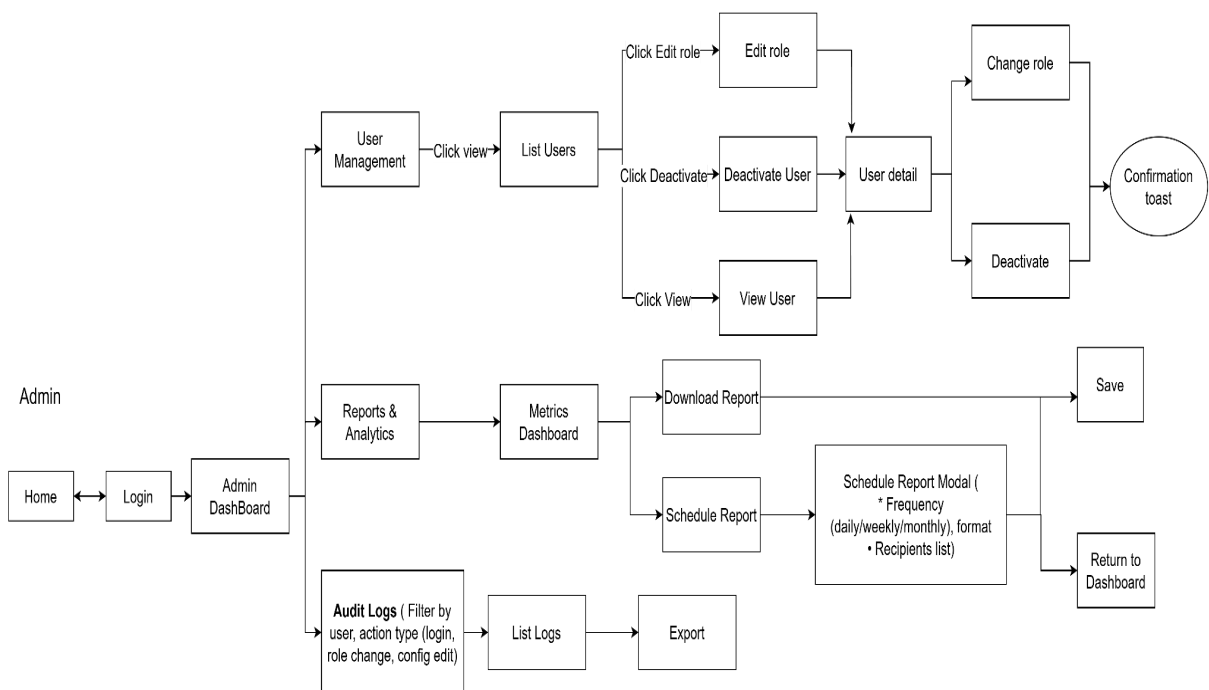

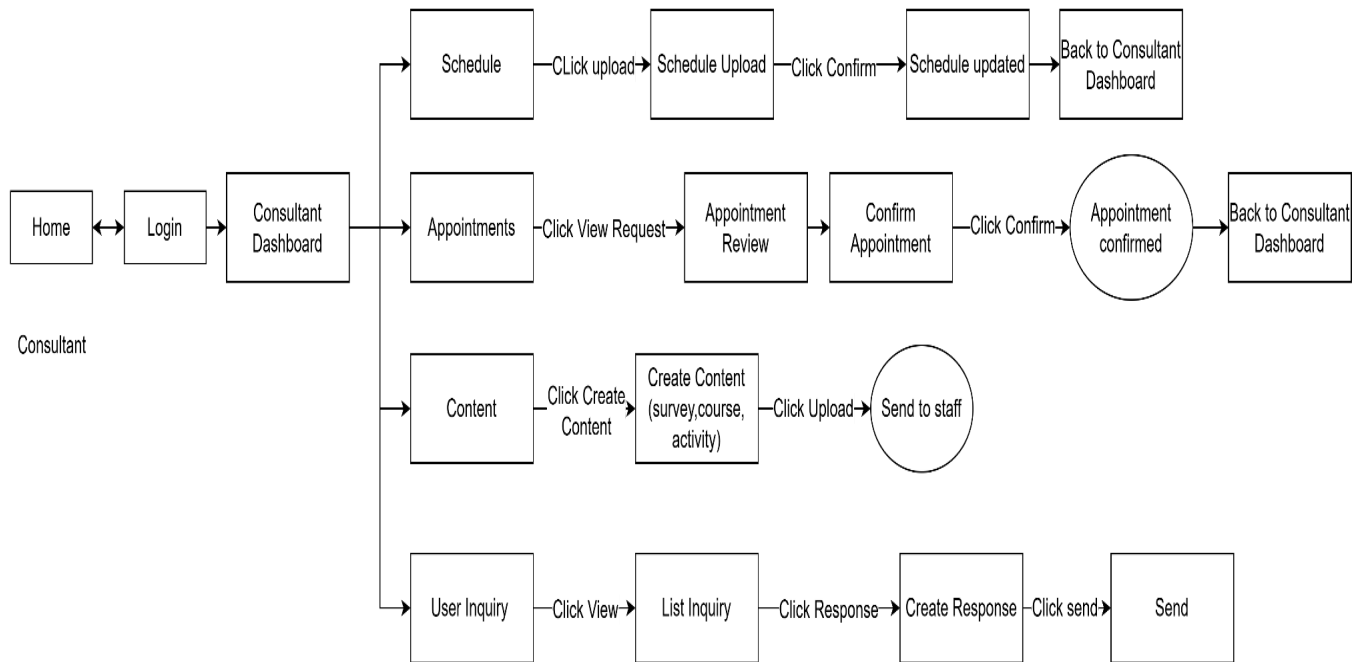

BR-46	Notification storage & retrieval: All notifications are stored under “My Notifications” for users to review at any time.
BR-47	If a member books an appointment but fails to attend, it will be recorded as a “No Show.” Once a member accrues three No Shows, each additional No Show will incur a seven-day suspension.
BR-48	Before coming to the appointment with Consultant 24h, users will receive a reminder email
BR-49	If the user does not attend the appointment, they will receive a warning email.

4. System Functions

4.1. Screen Flow

4.2. Screen Details

No.	Feature	Screen	Description
1	Start	Start	Entry point of the screen flow.
2	View home	Home	Landing page linking to Login/Register and main feature menus.
3	Login	Login Screen	Form for Email/Password/Google Auth, with Login and Forgot Password actions.
4	Login Error	Login Error Screen	Error message displayed when credentials validation fails.
5	Register	Register Screen	Form to create a new user account.
6	Registration Success	Registration Confirmation Screen	Confirms successful registration and redirects to Login.
7	Forgot Password	Forgot Password Screen	Form to enter email for password reset link.
8	Reset Password Confirmation	Reset Password Confirmation Screen	Confirms that reset link has been sent to the user's email.
9	Role Check	Check Role Screen	Determines user role after successful login.
10	Global Dashboard	Dashboard Screen	Main container displaying feature menu according to user role.
11	Logout	Logout	Logs out the user and returns to the Login screen.
12	View blog list	Blog Post List Screen	Displays a list of blog post titles.
13	View blog content	Blog Content Screen	Shows full blog post content with a Comment option.

14	Submit blog comment	Comment Form Screen	Form to enter and submit a comment on a blog post.
15	View course list	Course List Screen	Displays list of courses with title and summary.
16	View course detail	Course Detail Screen	Shows detailed description of the selected course.
17	Enroll in course	Enrollment Confirmation Screen	Confirms successful enrollment into a course.
18	View course modules	Course Modules Screen	Shows the course modules: Video, Document, Quiz.
19	Play video	Video Player Screen	Plays the video content of a course.
20	View document	Document Viewer Screen	Displays document content of a course.
21	Take quiz	Quiz Screen	Screen to take the quiz within a module.
22	View quiz results	Quiz Results Screen	Displays quiz score and feedback.
23	List surveys	Survey List Screen	Lists available ASSIST/CRAFT surveys for selection.
24	Input age for survey	Survey Age Input Screen	Form to input age and check eligibility for the survey.
25	Show ineligible warning	Survey Ineligible Warning Screen	Warns the user if they do not meet survey eligibility.
26	Display survey questions	Survey Questions Screen	Shows the questions of the selected survey.
27	Submit survey	Submit Survey Action	Action to submit survey answers.

28	Show basic survey results	Basic Survey Results Screen	Displays summary risk level results.
29	Prompt sign-up for detailed results	Sign-Up Prompt Screen	Encourages user to register to view detailed results.
30	Show detailed survey results	Detailed Survey Results Screen	Shows detailed evaluation and action recommendations.
31	View community activity list	Community Activity List Screen	Lists community outreach/education programs.
32	View community activity detail	Community Activity Detail Screen	Details of a community event with a “Join” option.
33	Take community survey	Community Survey Screen	Pre-/post-event survey form.
34	Submit community survey	Community Survey Submit Confirmation Screen	Confirms survey submission for community event.
35	View profile	Profile Screen	Shows personal information with Edit/Change Password options.
36	Edit profile	Edit Profile Screen	Form to edit personal profile details.
37	Save profile changes	Save Profile Confirmation Screen	Confirms saving of profile updates.
38	Change password	Change Password Screen	Form to change the user’s password.
39	Save password change	Password Change	Confirms successful password change.

		Confirmation Screen	
40	List consultants	Consultant List Screen	Displays list of available consultants.
41	View consultant profile	Consultant Profile Screen	Shows consultant's profile and availability calendar.
42	Select consultation slot	Pick Date & Time Screen	Form to select date and time for a consultation.
43	Confirm booking	Booking Confirmation Screen	Confirms successful booking of a consultation.
44	List my appointments	My Appointments Screen	Lists all booked consultation appointments.
45	Submit inquiry	Inquiry Submission Screen	Form to submit a question or feedback to the system.
46	Confirm inquiry submission	Inquiry Submission Confirmation Screen	Confirms successful inquiry submission.
47	View staff dashboard	Staff Dashboard Screen	Main screen for staff: Pending Content, Courses, Events, Inquiries.
48	Show notifications	Notifications Screen	Widget or pop-up showing new notifications.
49	Show navigation menu	Navigation Menu	Main navigation bar displaying available features.
50	List pending content	Pending Content List Screen	Lists manager-approved content pending editorial.

51	View pending content detail	Pending Content Detail Screen	WYSIWYG form to edit and tag draft content.
52	Cancel pending edit	Pending Content Cancel Confirmation Screen	Confirms cancellation of draft editing.
53	Send draft for review	Staff Submission Confirmation Screen	Confirms draft has been submitted to manager for review.
54	List courses for staff	Course Management Screen (Staff)	Lists courses allowing staff to create/edit/deactivate.
55	Open course editor	Course Editor Screen	Form to create/edit course details, upload video & quiz.
56	Confirm course publish	Course Publish Confirmation Screen	Confirms course has been sent for manager approval.
57	List community events	Community Events List Screen	Lists all community events (past & upcoming).
58	View past events	Past Events Screen	Displays events that have already occurred.
59	View upcoming events	Upcoming Events Screen	Displays events scheduled in the future.
60	Edit or create event	Event Editor Screen	Form to create or edit community event details.
61	Confirm event publish	Event Publish Confirmation Screen	Confirms event has been sent for manager approval.
62	List staff inquiries	Inquiry List (Staff) Screen	Lists all unassigned inquiries.

63	View inquiry detail (staff)	Inquiry Detail (Staff) Screen	Displays full inquiry content for staff review.
64	Confirm assign inquiry	Assign to Consultant Confirmation Screen	Confirms inquiry has been assigned to a consultant.
65	View manager dashboard	Manager Dashboard Screen	Main screen for managers: User Management, Content Management, Approval.
66	List users	User Management Screen	Displays user list with management actions (create/update/delete/assign role).
67	Create user	Create User Screen	Form to create a new user account.
68	Update user	Update User Screen	Form to edit existing user details.
69	Confirm user deletion	Delete User Confirmation Screen	Confirms user account deletion.
70	Assign user role	Assign Role Screen	Form to assign or change a user's role.
71	List content pending approval	Manager Content List Screen	Lists courses/blogs/events pending manager approval.
72	View content details	View Content Details Screen	Displays draft details for manager review.
73	Review content	Approval Screen	Form to enter comments and choose Approve or Reject.
74	Confirm content approval	Approved Confirmation Screen	Confirms content has been approved.

75	Confirm content rejection	Rejected Confirmation Screen	Confirms content has been rejected.
76	Notify post-approval	Manager Notification Screen	Sends approval results notification to staff/consultants.
77	View admin dashboard	Admin Dashboard Screen	Main screen for admin: User Management, Reports & Analytics, Audit Logs.
78	View metrics	Metrics Dashboard Screen	Displays system metrics and analytics charts.
79	Download report	Report Download Screen	Allows downloading the current report as a file.
80	Schedule report	Schedule Report Screen	Modal to configure recurring report schedule.
81	Confirm report scheduling	Save Report Confirmation Screen	Confirms recurring report settings have been saved.
82	Return to dashboard	Return to Dashboard Action	Action to return to the Dashboard after task completion.

In which:

- Admin: Admins manage the entire system, handle user accounts, ensure the system's performance, security, and stability.
- Staff: Staff members upload, update, and manage content provided by Consultants and approved by Managers, upload and edit courses and awareness activities, respond to user questions (directly for non-expert questions, escalate expert questions to Consultants), handle inquiries, and moderate user comments.
- Manager: Managers oversee Staff and Consultants, approve content created by Consultants and Staff, and manage the review and approval of courses and awareness activities.
- Consultant: Consultants provide counseling services, manage their schedules, view profiles of users booking sessions, create main content for blog posts, contribute expert knowledge to awareness activities, answer expert-level questions, handle inquiries, and review user comments.
- Member: Registered users can enroll in courses, complete surveys, view detailed evaluations, book counseling sessions, join awareness activities (educational materials, videos, social media campaigns, drug prevention workshops), post comments, and send inquiries.
- Guest: Unregistered users can access the homepage, view blog posts, course information, send inquiries, and take surveys, receive basic results, but cannot view detailed evaluations

4.4. Non-Screen Functions

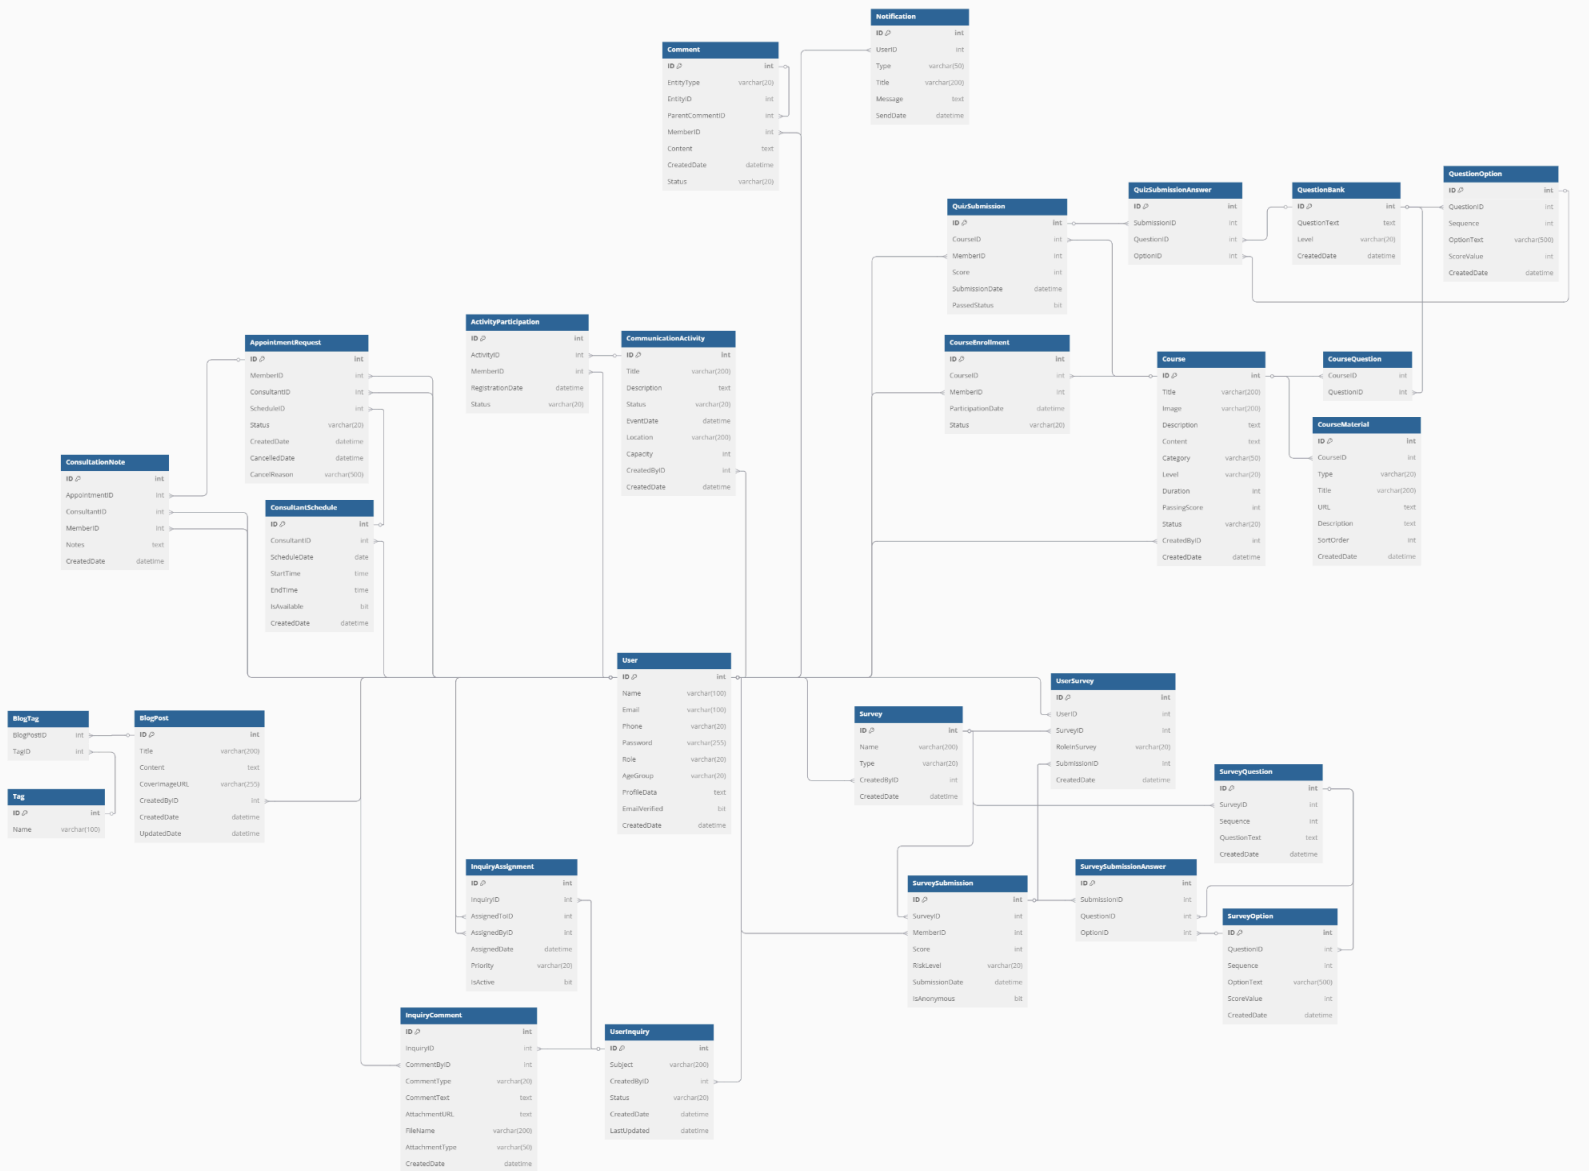

No.	Feature	System Function	Description
1	Enrollment processing	EnrollmentAPI	API endpoint to receive enrollment requests from the UI.
2	Enrollment processing	EnrollmentProcessorService	Backend service to persist enrollments and update user–course status.
4	Survey scoring	SurveyAPI	API endpoint to collect survey responses.
5	Survey scoring	SurveyScoringEngine	Engine to calculate ASSIST/CRAFT scores and categorize risk levels.
6	Recommendation generation	RecommendationService	Service to analyze survey results and generate action recommendations.
7	Recommendation generation	NotificationService	Sends recommendation notifications to users.

8	System email dispatch	EmailNotificationService	Central service for all outgoing system emails (signup, password reset, reminders, alerts).
9	Appointment reminders	AppointmentAPI	API for CRUD operations on appointments.
10	Scheduled report generation	ReportAPI	API to initiate report generation.
11	Scheduled report generation	ReportGenerationJob	Batch job to build CSV/PDF reports on a scheduled basis.
12	Scheduled report generation	DataExportService	Exports report files (CSV/PDF) for download or email delivery.
13	Audit logging	AuditLogService	Captures all CRUD operations, logins, and role changes into an audit trail.
14	Audit logging	MetricsCollectionService	Collects system usage metrics for monitoring.
15	Content approval workflow	ContentAPI	API to create, update, or delete content (blog, course, event).
16	Content approval workflow	ContentApprovalWorkflowService	Manages content state transitions (Draft→Pending→Approved/Rejected).
17	Content approval workflow	EmailNotificationService	Sends notifications of content approval or rejection to staff/consultants.
18	User management & authentication	UserManagementAPI	REST API to create, update, delete users and assign roles.
19	User management & authentication	AuthenticationService	Handles user login and logout authentication.

20	User management & authentication	SessionManagementService	Manages user sessions/JWTs and token refresh flows.
21	User management & authentication	PasswordResetService	Handles password reset workflow (send link, validate, update password).
22	Google OAuth login	GoogleOAuthService	Integrates Google OAuth2: exchange code for tokens, validate, and sync user profile.
23	Google OAuth login	AuthenticationService	Uses OAuth tokens to create user sessions and JWTs.
24	Full-text content search	ContentSearchService	Service to index and query blog posts, courses, and events with autocomplete.
25	Full-text content search	SearchAPI	Exposes search endpoints with filter options.
26	Session management	SessionManagementService	Issues, stores, and invalidates sessions/JWTs; enforces TTL.
27	Session management	AuthenticationService	Validates tokens and handles session refresh.
28	Appointment scheduling API	AppointmentAPI	CRUD endpoints for managing appointments between members and consultants.
29	Multi-channel notifications	EmailNotificationService	Sends notifications via email.
30	Multi-channel notifications	PushNotificationService	Sends push notifications to web clients.

II. Functional Requirements

1. Homepage and General Information

a. View Homepage

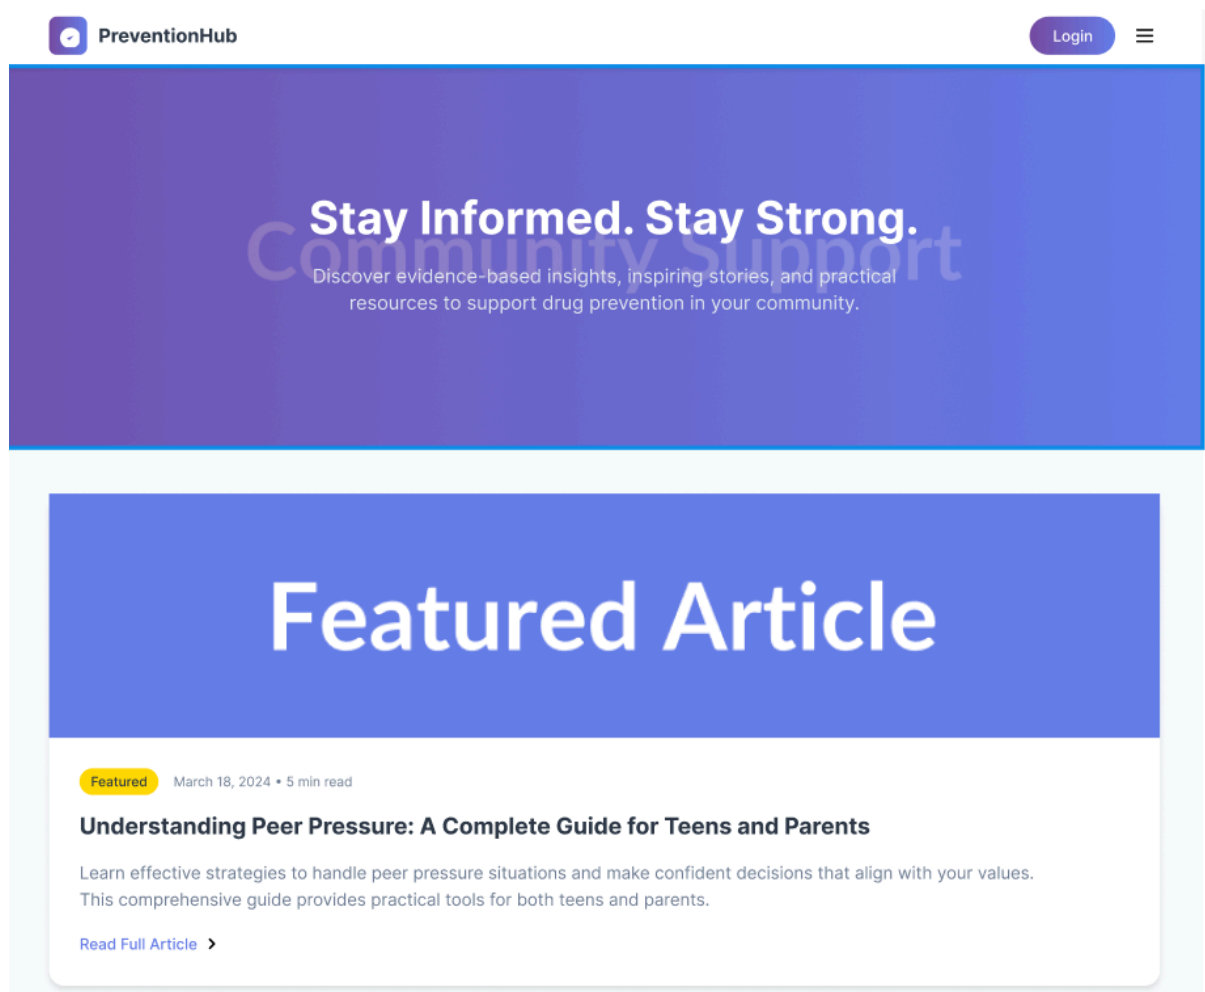

- **Function Trigger:** Direct access to the system URL (e.g., <http://example.com>).
- **Function Description:** For all users (Guest, Member, Staff, Consultant, Manager, Admin). The purpose is to introduce the volunteer organization, share blog experiences. Interface displays logo, organization description, blog list, and links to other functions. Data processing involves loading static content from the database.
- **Screen Layout:**

- **Function Details:**
 - **Data:** Static content (text, images) from the database.
 - **Validation:** No login required.
 - **Business Logic:** Displays all public content.
 - **Normal Case:** User views content without interaction.
 - **Abnormal Case:** If the server fails, it displays "Page load failed, try again later."
- b. **View Blog Post**

- **Function Trigger:** Click on a blog title on [Homepage].
- **Function Description:** For Guest and Member. The purpose is to read detailed experience-sharing posts. The interface displays title, content, date, and a back button. Data processing retrieves posts from the database.

- **Screen Layout:**

- **Function Details:**

- **Data:** Post ID, title, content, date.
- **Validation:** No login required.
- **Business Logic:** Displays only approved posts.
- **Normal Case:** User reads and returns.
- **Abnormal Case:** If the post is not found, it displays "Post does not exist."

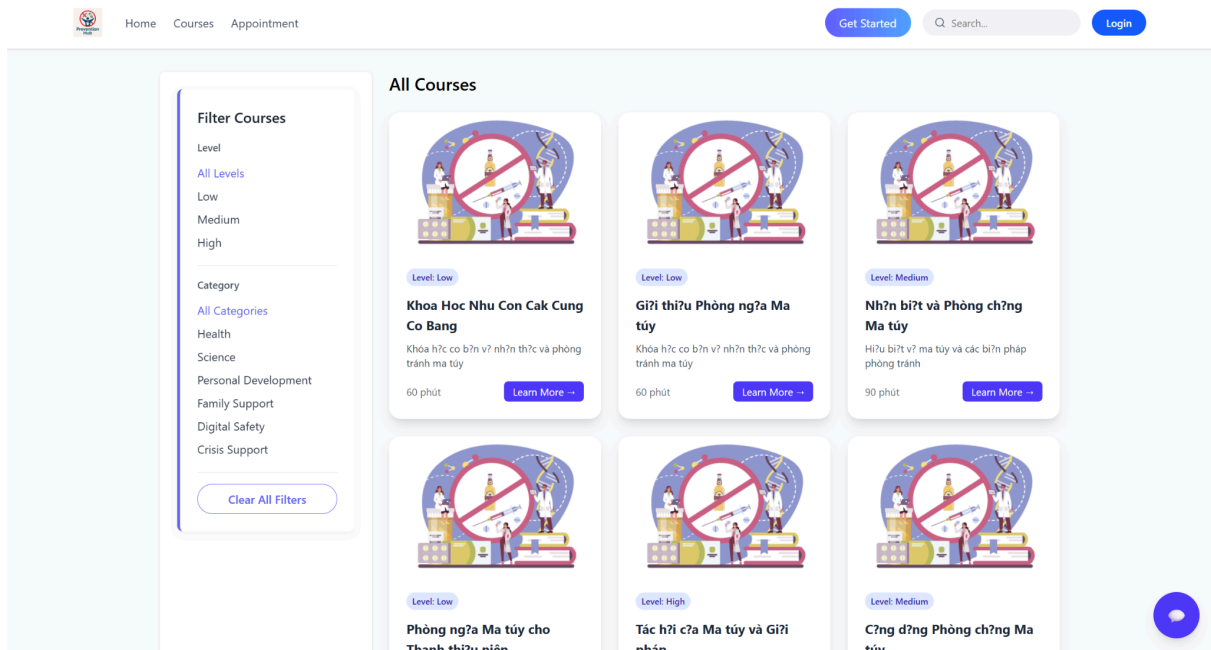

2. Online Training Course Management

a. Search and Register for Courses

- **Function Trigger:** Click "Courses" on [Homepage] or [Dashboard] after login.
- **Function Description:** For Member. The purpose is to search courses by age (students, university students, parents, teachers) and topics (drug awareness, prevention skills, refusal skills), then register. The interface displays the catalog,

filters, course details, and the register button. Data processing queries the database and updates the user profile.

- **Screen Layout:**

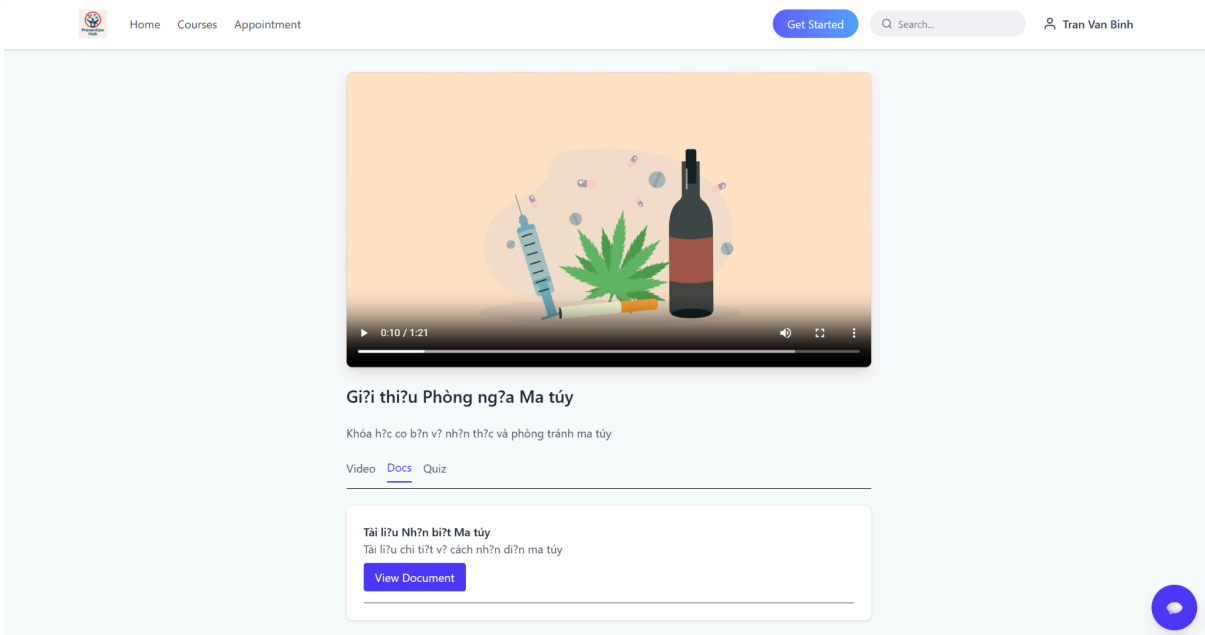

- **Function Details:**

- **Data:** Course list, user profile.
- **Validation:** Requires login.
- **Business Logic:** Displays age-appropriate courses, records registration.
- **Normal Case:** Member filters, selects, and registers successfully.
- **Abnormal Case:** If the course is full, it displays "Course is full."

b. Participate in Learning

- **Function Trigger:** Click the registered course on [Dashboard].
- **Function Description:** For Member. The purpose is to view lecture videos, complete assignments, and receive certificates (if eligible). The interface displays a lecture list, video, questions, and progress. Data processing tracks progress and issues certificates.
- **Screen Layout:**

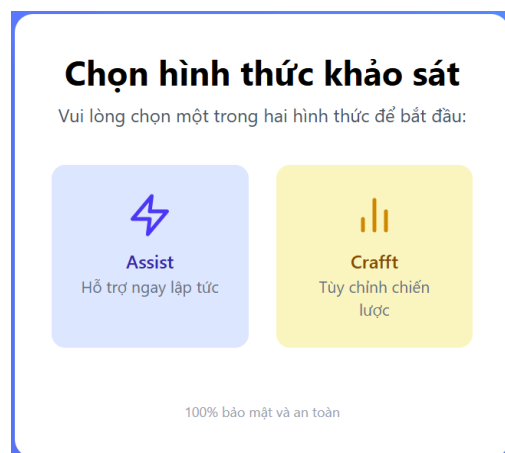

- **Function Details:**
 - **Data:** Videos, documents, questions.
 - **Validation:** Checks registration.
 - **Business Logic:** Issues certificate at 100% completion.
 - **Normal Case:** Member views, completes, and receives certificate.
 - **Abnormal Case:** If incomplete, displays "Please complete assignments."

3. Risk Assessment and Early Intervention

a. Function 1: Conduct a Survey

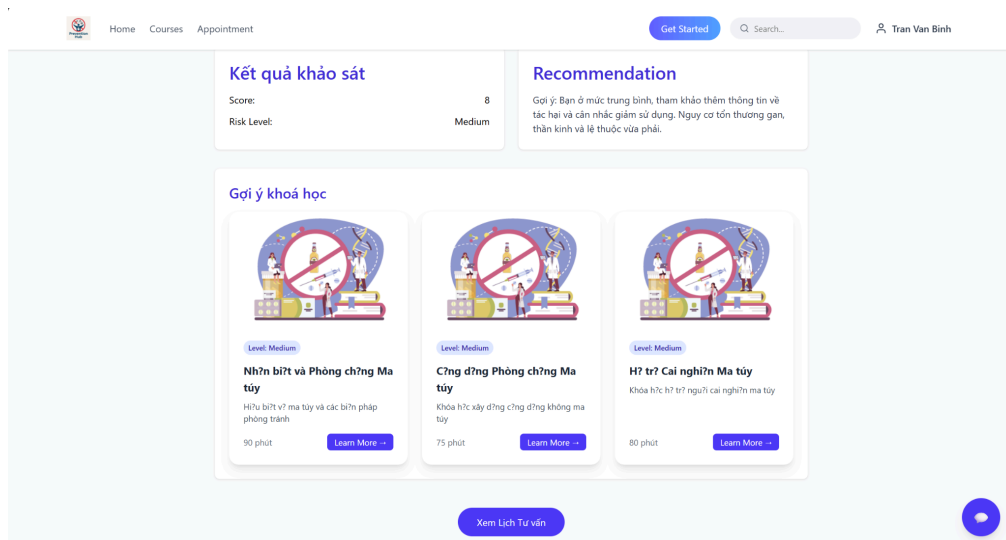

- **Function Trigger:** Click "Surveys" on [Homepage] (Guest) or [Dashboard] (Member).
- **Function Description:** For Guest and Member. The purpose is to conduct ASSIST/CRAFT surveys to assess risk. The interface displays survey selection, age input, questions, and results. Data processing calculates scores and suggests actions.
- **Screen Layout:**

- **Function Details:**
 - **Data:** Survey answers, age, scores.
 - **Validation:** Checks age (16+ ASSIST, 12-26 CRAFFT).
 - **Business Logic:** ASSIST: 0-6/question, 0-3 low, 4-26 medium, 27+ high; CRAFFT: 0 low, 1 medium, 2+ high.
 - **Normal Case:** Completes survey, receives results.
 - **Abnormal Case:** If age is invalid, it displays "Age not eligible."

b. Propose and Implement Actions

- **Function Trigger:** After results on [Results Screen] (Member only).
- **Function Description:** For Member. The purpose is to propose and implement actions (courses, counseling, workshops) based on risk. The interface displays suggestions, registration buttons. Data processing records registrations and appointments.
- **Screen Layout:**

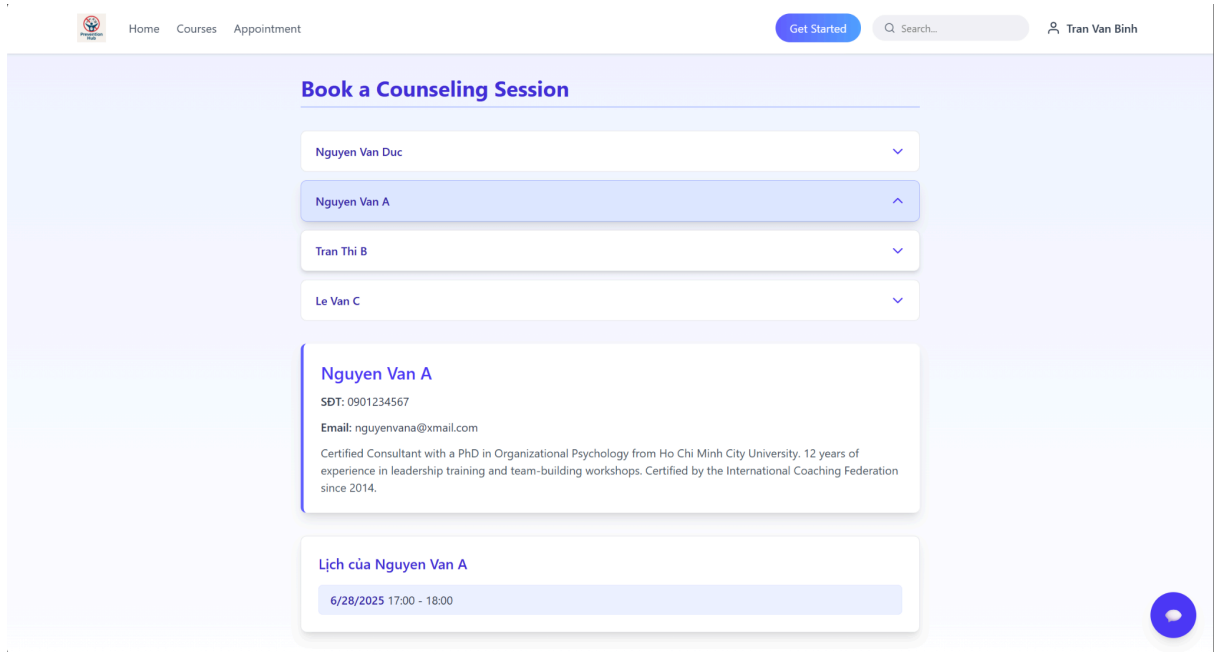

- **Function Details:**
 - **Data:** Risk level, appointments, courses.
 - **Validation:** Requires login.
 - **Business Logic:** Low: basic course, articles; Medium: advanced course, 30-min counseling; High: mandatory course, 1-hr counseling, workshop.
 - **Normal Case:** Registers/books successfully.
 - **Abnormal Case:** If the schedule is full, it displays "No available slots."

4. Personalized Consulting

a. Function 1: Schedule Consultant Appointment

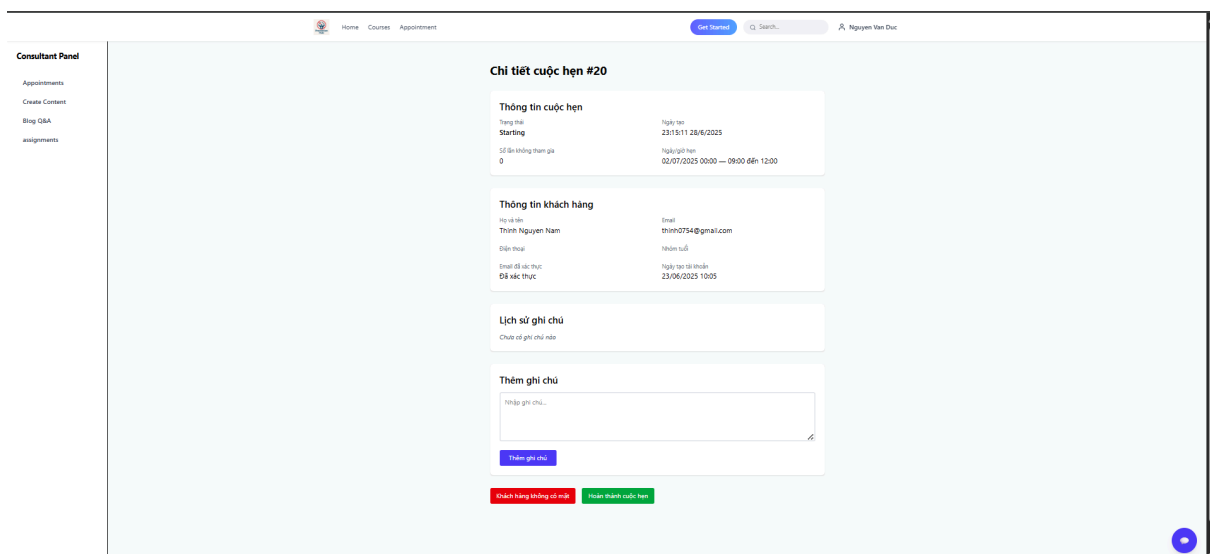

- **Function Trigger:** Click "Meet Consultant" on [Dashboard].
- **Function Description:** For Member. The purpose is to schedule an online counseling appointment. The interface displays available slots and a booking button. Data processing syncs schedules and confirms.
- **Screen Layout:**

- **Function Details:**
 - **Data:** Available slots, appointment time.
 - **Validation:** Checks 24-hour advance (e.g., 08:55 PM +07, 20/6/2025).
 - **Business Logic:** Books only per consultant schedule, real-time sync.
 - **Normal Case:** Booking successful.
 - **Abnormal Case:** If <24h, displays "Must book 24 hours in advance."

b. Participate in Consultation

- **Function Trigger:** Click appointment notification on [Dashboard].
- **Function Description:** For Member. The purpose is to join online counseling. Interface displays video call, notes. Data processing saves notes.
- **Screen Layout:**

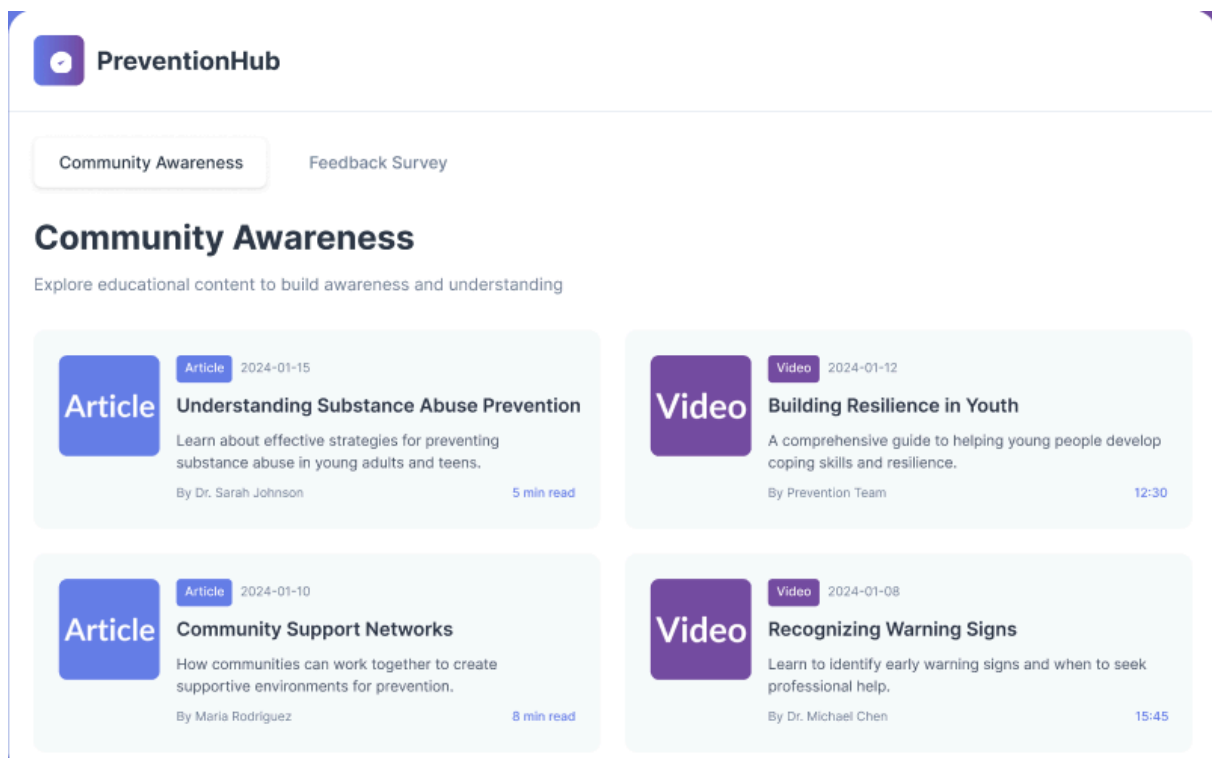

- **Function Details:**
 - **Data:** Notes, session time.
 - **Validation:** Checks appointment.
 - **Business Logic:** Data accessible only to Member, Counselor, and Manager.
 - **Normal Case:** Completes session, saves notes.
 - **Abnormal Case:** If canceled <12h, records "No-show."

5. Community Awareness and Education

a. View Awareness Content

- **Function Trigger:** Click "Awareness" on [Homepage] or [Dashboard].
- **Function Description:** For Guest and Member. The purpose is to view articles, videos on drug awareness. The interface displays a content list. Data processing loads approved content.
- **Screen Layout:**

- **Function Details:**
 - **Data:** Articles, videos.
 - **Validation:** No login required.
 - **Business Logic:** Displays only approved content.
 - **Normal Case:** Views content.
 - **Abnormal Case:** If no content, displays "No data available."
- b. **Participate in Pre/Post-Program Survey**
 - **Function Trigger:** Click the survey link on [Awareness] after activity registration.

- **Function Description:** For Member. The purpose is to provide feedback. The interface displays survey questions. Data processing saves feedback.
- **Screen Layout:**

PreventionHub

Get Started

Feedback Survey

Help us improve our awareness activities with your valuable feedback

How would you rate the overall quality of the awareness activity?

Next >

- **Function Details:**
 - **Data:** Survey feedback.
 - **Validation:** Checks activity registration.
 - **Business Logic:** Stores feedback for improvement.
 - **Normal Case:** Submits feedback successfully.
 - **Abnormal Case:** If not registered, displays "Must join activity."

6. Consultant Information Management

a. View and Update Counselor Profile

- **Function Trigger:** Click "Profile" on [Consultant Dashboard].
- **Function Description:** For Counselor. The purpose is to view/update info (qualifications, expertise, schedule). The interface displays details and edit fields. Data processing updates the database.
- **Screen Layout:**
